ARRESTS.—The Washington Star of Saturday, after mentioning the arrest of several defaulting and absconding paymasters, &c., announced that on Friday Quartermaster Stoddard, stationed in Alexandria, "had been arrested charged with large frauds," and added, "the turn of others will soon follow."

Yesterday, it was publicly proclaimed in the streets that Capt. Ferguson, of the Quartermaster's Department, Capt. Snow and other employees in the department had been arrested and taken to Washington, and placed in the old Capitol prison, on charges of a grave character. These arrests have caused much conversation in this place, among the friends of the accused and the public generally.

The New York World thinks that the illness of Mr. Lincoln is much more serious than was generally suspected, being an attack of small-pox, but sincerely hopes that he may recover as it says "his death at this time would be a real calamity to the country, and would tend to prolong the war. Until the presidential election is held we wish to see Mr. Lincoln conduct the government rather than Mr. Hannibal Hamlin, the present Vice-President.—Better a plague, better the death of all our generals, better the loss of the Mississippi and a foreign war combined, than that the furious anti-slavery fanaticism which Mr. Hamlin represents should get complete control of the machinery of the government."

The Washington correspondent of the New York Herald says:—"The estimates of the Secretary of the Treasury call for the following sums for the fiscal year commencing on the 30th of June, 1864:—For army and navy, \$700,000,000, of which \$142,000,000 are for the navy. The civil list, Indian expenses, &c., amount to \$102,000,000; making a total of \$802,000,000 for the next fiscal year. On the 30th of June, 1864, the Treasurer estimates that he will have a surplus from last year's appropriation of about \$8,000,000. The estimates have been carefully prepared, and the figures put as low as possible."

PRICES IN NORFOLK.—Cabbage are retailing in market at 30 cents per head, and from \$15 to \$20 per hundred; Turnips were bringing \$1 60 per bushel, and apples, ordinary, \$1 40. Good looking turkeys \$1 00. Coal is now selling in the city for \$12 50 per ton.

DR. S. B. SIGESMOND & CO.,

211, King Street, Alexandria, Va., 910 Broadway, New York—200 Pennsylvania avenue, between 12th and 18th streets, Washington.

CALLS the attention of the public to the following advantages of his improved system:

1. The Teeth of their manufacture will never corrode nor change color by any acids, being three-fourths lighter than any other.
2. No teeth or roots need be extracted, as the artificial ones can be inserted over them.
3. The roots will be made inoffensive and never to ache.

4. No temporary teeth are needed, as permanent ones can be made immediately, thereby preserving the natural expression of the face, which under the old system is frequently disfigured.

5. This work has been fully tested over five years by many of the first chemists and physicians of this country.

Dr. S. & Co., have also invented a white undestructive metal filling, with which the most sensitive teeth can be filled without pain, and can build up a perfect sound tooth on any side roots, which will last through lifetime.
